Education

B.Tech in Artificial Intelligence and Machine Learning Swarnandhra College of Engineering and Technology, Seetharampuram (2022-2025)	CGPA: 8.03/10.0
Diploma in Electronics and Communication Engineering Smt.B. Seetha Polytechnic, Bhimavaram (2018-2021)	GPA: 75.17/100.0
Secondary School St. John's (E.M.) Model High School, Bantumilli (2017-2018)	CGPA: 9.5/10.0

Technical Skills

- **Programming Languages:** Python
- **Web Technologies:** HTML, CSS
- **Technologies:** Streamlit, Django
- **Tools:**VS Code, Jupyter Notebook

Projects

Password Strength Analysis and Recommendation System Technologies: Django, HTML, CSS, JavaScript, zxcvbn Library, Matplotlib
• Built a web app that analyzes password strength in real time using the zxcvbn library. • Provided personalized recommendations to improve weak passwords, improving user security. • Visualized password metrics using Matplotlib (bar and pie charts) for better user understanding.
Global Video Explorer Technologies: Streamlit, YouTube Data API, Python, REST API
• Built a multilingual video explorer that fetches latest videos by topic, language, and time filters using YouTube Data API. • Integrated dynamic search, pagination, and related video recommendations for user-friendly browsing. • Enabled real-time content access across multiple languages and job/tech categories using Streamlit UI.

Experience

Indian Servers – Software Development Company Artificial Intelligence Internship	AIMERS — 8 weeks
• Designed an AI-powered general medical chatbot to answer user queries about diseases and treatments. • Built a visual question answering system to respond to image-based questions effectively. • Applied YOLO algorithm for real-time object detection and pose estimation.	

Certifications

- Machine Learning Internship Certificate, Indian Servers (2023)
- Artificial Intelligence Internship Certificate, Indian Servers (2024)
- Python for Data Science, NPTEL (Oct 2024)
